

Building on quality

AVMU Hand Held Electric Pokers

New, improved and durable hand held electric drive units with lightweight flexible drives and poker heads.

**Highly
reliable and
lightweight**

- Robust construction for site durability
- Improved double casing design offers greater protection to the motor
- Excellent vibration output increases productivity up to 35m³/hr
- Four handles for easy carrying making vertical use easy
- Interchangeable Shafts and Poker Heads to suit your application
- Foam and grating filter at air intake
- Excellent for hire fleets
- High quality flexible drive reduces damage from abuse

Choose and specify the Drive unit, Shaft length and Poker heads to suit your job requirements.
