Building on quality

FPL Plate Compactors

Narrow, lightweight but Heavy-duty compactors for asphalt and sub-base compaction.

Highly portable, easily manoeuvrable whilst delivering excellent compaction results

Ideal for Streetworks

- A lightweight plate with heavyweight features
- 'Soft feel' handle for operator comfort
- Low vibration levels without the additional weight
- 300 & 320 and base width giving a choice of engine options
- Mechanical lifting point
- Ideal for streetworks and in limited space applications
- Optional Water Kit and Paving Mat available
