

- Bevelled drum edge prevents marking on surface
- Thick drum shell, longer life
- Self-cleaning scrapers to prevent build up of dirt on drum
- Large 15 litre corrosion-free water tank
- Deadman handle control with reversing protection
- Ergonomically designed, height adjustable handle
- Lifting holes for easy transportation
- Narrow overhang for operation close to wall and kerbs
- Built in cooling fan for longer life and continuous operation

Building on quality

FVR Single Drum Vibratory Roller

Lightweight and manoeuvrable single drum roller for granular and asphalt compaction. Ideally suited for repair and maintenance work.

Durable Design
