## Masonry Saws

The Elite 80 is the worlds most advanced site saw using cast and extruded aluminium to make a light but precise and robust machine. The adjustable head can be set to any angle up to 45°

- Cuts material up to 110mm deep with a 350mm blade
- Precision sliding table for accurate and controlled cuts
- Cutting head tilts for up to 45° angle cuts
- Accurate angle fence, length and width scales.
- Industrial laser sight for accurate alignment
- Switch fitted with NVR, to prevent accidental starting
- High quality water pump for reliable cooling
- Elite 80 also available with optional laser guide and wheels

	Power W	Blade Diameter mm	Max. cut thickness mm	Max. cutting length mm	Weight Kg	Order Code
