

*Building on quality*

## PP193 Plate Compactor

General purpose Plate Compactors with built in wheels for transportation. For compaction of sub-bases and asphalt these plates have high build quality and excellent performance.

### Traditional Reliability

- Robust construction for site durability
- Cast Baseplate with rounded edges
- Heavy duty, long-life bearings
- Built-in wheels for site transportation
- 460mm Base width for asphalt and soil compaction
- Lifting points provided
- Optional Paving Mat available for block work
- Water Kit available for asphalt compaction
