

*Building on quality*

## PP33 Standard Plate Compactor

Plate compactors for compaction of sub-bases and asphalt. With high build quality and excellent performance these plates have proved to be a favourite tool for contractors.

### Traditional Reliability

- Only weighs 41 kg so it's easy to handle
- Heavy duty long life bearings
- Centrifugal clutch pulley as standard
- Fully folding handle, will fit in the boot of most cars
- Rubber mat available for block paving
