

*Building on quality*

## "W" Range Flexible Shaft Pokers

High quality flexible shaft pokers. Providing reliable performance on site and a long service life for higher profits.

### Long Life

- Made in Sheffield, quality you can rely on
- Single Bearing & sealed head, protecting the precision engineering
- Stress relieving shaft sleeves, reduced shaft wear
- Components heat treated and hardened, minimum wear
- Fitted with 5m flexible shafts as standard, the popular choice
- Coupling choice, suitable for any make of power unit

For a complete poker choose your poker head and a coupling type from the table.

|   | Diameter mm                                  | Length mm | Amplitude mm | Frequency V.P.M | Weight c/w 5 m shaft kg | HAV m/sec <sup>2</sup> | Order Code |
|---|--|-----------|--------------|-----------------|-------------------------|------------------------|------------|
| 525 'W' range poker c/w 5m shaft & coupling | 25   | 420       | 0.75         | 12,000          | 15                      | 4                      | 92766      |
| 536 'W' range poker c/w 5m shaft & coupling | 36   | 432       | 1            | 12,000          | 22                      | 5                      | 92767      |
| 545 'W' range poker c/w 5m shaft & coupling | 45   | 458       | 1.2          | 12,000          | 24                      | 7                      | 92768      |
| 560 'W' range poker c/w 5m shaft & coupling | 60   | 585       | 1.25         | 12,000          | 26                      | 5.5                    | 92769      |
| Errut/Belle coupling                        | For Errut/Belle drive units                  |           |              |                 |                         |                        | W60802     |
| Metrix coupling                             | For Metrix "standard" coupling drive units   |           |              |                 |                         |                        | 92844      |
| Dynapac coupling                            | For CEL, Dynapac, Winget, Wacker drive units |           |              |                 |                         |                        | W60801     |
| Standard W range coupling                   | For Warsop type drive units                  |           |              |                 |                         |                        | W60803     |
